CONNECT TO PHONE

Open the top corners of the device to access the USB-C or microUSB connector & connect to a cell phone

---

OPEN FILES

① Pull down to open notifications
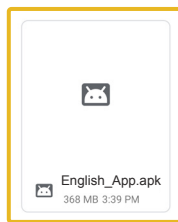

② Select **USB storage** or **drive** ⚠️

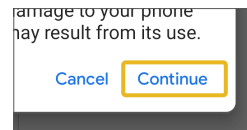

Select **Allow access** (on some phones)

NOTE: If USB storage is not in notifications, search for **Files app**, and select **USB storage**

INSTALL APPS

① Select **app install file** (.apk or .adb file)

② There will be a warning. Select **Continue**

NOTE:
On some phones you must also enable "unknown sources" or "allow from this source" in settings.

③ Select **Install**
